Walk through a Sample Lesson

In one hour and 15 minutes....

1

Students look at six works of art based on a theme. They will compare and contrast the images.

2

During the Gallery Visit the docent leads an interactive discussion about artworks and artists. Questions are asked such as: "Which landscape would you like to visit?", "Which people are closest to you?", "What buildings do you see?"

3

A Studio Lesson follows the discussion where students create art-based pieces on the theme using a wide variety of media and techniques.

4

In the Studio Lessons students don't just replicate the classical art they learn about. Instead, they create their own masterpieces.

5

At the close of the Landscape Lesson students will have painted a bird's eye view of a landscape.

6

Here is an example of a third grader's landscape.

"Artists Paint Landscapes" Grade 3

This painting by Pieter Bruegel the Elder is one of six images in this Gallery Visit. Also included are works by Monet, Cezanne, Inness, Hassam, El Greco and Seurat.
